Once a year, MVMC does a Benefit Run in support of a nonprofit whose work provides assistance to and advocacy for women and children. In the past, we have raised funds (\$2K to \$10K) for local organizations in the fields of breast and ovarian cancer, mobile mammography, women with/at risk for HIV/AIDS, women's shelters, girl/teen empowerment, human trafficking, domestic violence and more. Through our ride, we garner support for and increase visibility of small and community-based projects and organizations dedicated to making a difference. We educate others and ourselves about the important work that these individual nonprofits are doing in service to the local community.
